A Splendid Investment!

Vallejo Central Homestead Association!

Shares $150 Each---In Fifteen Equal Monthly Payments!

The Shares of this Association are now ready for disposal. Each share represents a full-sized city lot, of one quarter acre, less streets and alleys. The lands of this Association are located between the old and new portions of Vallejo. These lands comprise one hundred acres, divided into four hundred lots represented by the shares. The value of these shares has been fixed at $150, payable in fifteen monthly installments of $10 each. The first installment of $10 will be due in February, and will be credited for that month, and $10 for each month thereafter for fourteen months, thus affording by easy payments an opportunity for a profitable investment at small outlay. The lots will be divided to shareholders by the equitable method of BID FOR CHOICE, and the premiums derived from such sale will be divided pro rata among the shareholders. The title to the lands is unquestionable, being a UNITED STATES PATENT.

Attention is called to the maps accompanying the Articles, By-Laws and Circulars of the Association, from which it will be seen that these lots are the most favorably located and most desirable real estate to be had in the vicinity of the growing City of Vallejo, and also that their location is such as to become valuable by the expansion of either portion of the city. The limits of an advertisement will not permit a discussion of the prospective growth and ultimate importance of the city, and the consequent enhancement of the value of real estate; but attention is called to a few incontrovertible facts which justify the most sanguine expectation as to its growth and importance:

First—It is the head of ocean navigation for sea-going vessels.

Second—It is located upon one of the only two deep and conveniently accessible harbors to be found in the Bay of San Francisco.

Third—It is the natural and only possible Railroad Center on the coast.

Fourth—It is the NATURAL, and will most assuredly become the ACTUAL terminus of the Union Pacific Railroad.

Fifth—It is the Commercial Center of the largest and richest agricultural district in the State.

Sixth—It will inevitably control the grain trade of the coast, and become the chief mart of the agricultural interest.

That these elements of ultimate greatness will make Vallejo a city of the first importance on the Pacific coast cannot be doubted. The size, location, present and prospective value of the lots represented by the shares in the "Vallejo Central Homestead Association," considering the low rate and easy terms of payment at which they are offered, make them the most desirable investment to be found in the State. Full and satisfactory information concerning location, title, size of lots, the rights and advantages acquired by purchase, etc., will be furnished to any address upon application. A careful examination of the maps accompanying the pamphlet circulars is solicited.

Great Paris Exposition, 1867,

Being the highest honors and all the Gold Medals awarded to any Sewing Machine Company at this Exposition.

As a HOLIDAY Present, Nothing will be more appreciated THAN ONE OF these MACHINES.

America, England and France, now unite in this grand Proclamation:

Good news! good news the cable brings,
O'er all the wires it flies,
Wheeler & Wilson's sewing machine
Brings back the golden prize.

Our "Uncle Sam" first struck the note,
"John Bull" then caught the sound;
Now comes from France the echo back,
Wheeler & Wilson's crowned.

And now, no more the people doubt,
So long its stood the test—
The thing is fairly noised about
And they will buy the best.

☞ We can now supply those who wish to purchase 'STODDARD'S PATENT TUCK-MARKER,' one of the most useful attachments to the Machine yet invented; which, while sewing one tuck, makes the line of marks for the next.

Winter.

I'm glad we have wood in store awhile,
For soon we must shut the door awhile,
As wintry winds may roar awhile,
And scatter the whirling snow.

The swallows have now all hied away,
And most of the flowers have died away,
And boughs, with their leaves all dried away,
Are wind-beaten to and fro.

Your walks in the ash-tree groves are cold,
Your banks in the timbered groves are cold,
Your seats on the garden-coves are cold,
Where sunheat did lately glow.

No rose-bud is blooming red to-day,
No pink for your head or breast, to-day,
O'erhanging the garden bed to-day,
Is nodding its sweet head low.

No more is the singing lark above,
And air overclouded dark above,
So baffles the sun's last spark above,
That shadows no longer grow.

So now let your warm cheeks bloom to-night,
While fireflames heat the room to-night,
Dispelling the flickering gloom to-night,
While winds of the winter blow.

WHAT IS IN THE MOON.—Is the moon habitable? To this question the selenographer would reply by pointing out its mountains and its almost volcanic features, its bare and arid surface—soil it has none—its want of atmosphere, and the extremes of burning heat and more than Arctic cold to which it is, in quick alternation, exposed. Vast saharas without a single oasis; piles of mountains, but, unlike those of the Andes, Himalayas or Hindu-Kush, they have no snow-capped summits or woody sides, no streams and torrents, the beginning of mighty rivers. In vain the eye searches for fertile valley or green meadow, or

Tempered sun and water, earth and air,
In changing composition ever mix.

There is no variation of color or appearance of surface which would indicate vegetation or change of seasons. The absence of which an atmosphere investment, with its attendant clouds, as given to the earth, exposes the lunar surface to the direct and unbroken sun's rays, which are also radiated back from it into space without being refracted. The vaporous atmosphere, which acts as a warm clothing to the earth, is wanting to the moon. The great extremes and rapid alternations of temperature would of themselves render animal life impossible, at least in such organisms as are on earth. The alteration is that of unmitigated and burning sunshine continued for an entire fortnight, and an intensity of cold far exceeding that of our Arctic winter for the same time. We read in Capt. Sturt's narrative of his travels of exploration into the interior of Australia, that in one place "the ground was almost a molted surface, and if a match fell upon it it immediately ignited." But even this is quite tolerable when compared with the maximum heat of the moon, which is estimated by Althaus, the German physicist, to be 840 deg Farenheit; it occurs on the 22d day of lunation, or seven days after the day of full moon. This heat exceeds that of the fusing point of tin and lead. The greatest cold is about half a day after the first quarter; it is equivalent to 90 deg. Fahrenheit below zero, or about 124 deg. below the freezing point, which would suppose a fall of 932 deg. in ubout 15 days.

A GREAT MANY DUCKS.—The Louisville Courier, in noticing a visit of "Johnny" Morehead to that city, is reminded of an amusing incident that occurred in the good old days when his father was Governor of Kentucky. Powell who kept a restaurant and drinking saloon in Frankfort rendered his monthly report to "Johnny" (the boys couldn't get credit then), which amounted to $150. "Johnny" went to his father to get the money.

"One hundred and fifty dollars, Johnny?" said the Governor; "it's a large bill, son."

"Have you the bill with you?"

"I believe so"—hesitatingly.

"Let me see it, son."

Johnny slowly drew forth a long strip of bill paper, on which there were exactly thirty items put down as "D'ks," ranging from ten cents to as many dollars. The Governor adjusted his specs, and regarding it attentively, said:

"D. K. S—D. K. S; Johnny, my son, what does D. K. S. stand for?"

"Ducks, father, ducks! But of course they were not all ducks—some were patridges and snipe, and even eggs and oysters. But Lou Murray put them all down as ducks."

The Governor looked first at Johnny and then at the bill, and giving an ominous "hem," wrote a check.

Nobody ever believed the Governor was fooled, but after that, "Will you take a duck?" was a long time a favorite convivial invitation with the Frankfort boys.

GO TO FARMING.—A good living is what comparatively few men succeed in making in village or city life, and yet nothing is more easy of accomplishment on a farm. Besides, there is pleasure in cultivating and embellishing the earth, improving and increasing its products, and thus adding to the aggregate human happiness. Why, then, should young men hesitate to be farmers? It is both profitable and honorable. It is the nearest approximation to independence that a man as a member of society can make. A gentleman farmer—and all farmers are or should be gentlemen—belongs to an order of nobility that is not indebted to place-holders for installation, and may, if he chooses, be ranked among the greatest benefactors of the human race. Let all the idle young men go to work on farms, and quit seeking third and fourth rate clerkships. In short, go to farming and quit begging.

A PEW in a contracted meeting-house is thus advertised for sale in a Yankee contemporary: "A pew in the meeting house of the first parish in Sougham for sale. The man who owns the pew owns the right of a space just as long and as wide as the pew is from the bottom of the meeting house to the roof, and he can go as much higher as he can get. If a man will buy my pew and sit in it on Sundays and repent and be a good man, he will go to heaven; and my pew is as good a place to start from as any pew in the meeting-house."

A GOOD YARN.—In the village of W—— lived a man who had been the judge of the county, and well known all over it by the name of Judge L——. He kept a store and a saw mill, and was always sure to have the best of the bargain on his side, by which he had gained an ample fortune; and some did not hesitate to call him the biggest rascal in the world. He was very conceited, withal, and used to brag of his business capacity, when any one was near to listen. One rainy day, as quite a number were seated around the stove, he began as usual, to tell of his great bargains, and at last wound up with the expression:

"Nobody has ever cheated me, nor it can't be done, either."

"Judge," said an old man of the company, "I've cheated you more than you ever did me."

"How so?" said the Judge.

"If you will promise you won't go to law about it, nor do anything, I'll tell you; you are too much of a law character for me."

"I'll promise," said the Judge, "and treat in the bargain if you have."

"Well, do you remember that wagon you robbed me of?"

"I never robbed you of any wagon, I only got the best of the bargain," said the Judge.

"Well, I made up my mind to have it back, and—

"But you never did," interrupted the cute Judge.

"Yes, I did; and interest too."

"How so?" thundered the now enraged Judge.

"Well, you see, Judge, I sold you one day a very nice pine log, and bargained with you for a lot more. Well, that log I stole off your pile down by the mill the night before, and the next day I sold it to you. The next night I drew it back home, and sold it to you the next day, and so I kept on until you bought your own log of me twenty-seven times."

"That's a lie!" exclaimed the infuriated Judge, running to his account book and examining his log account, "you never sold me twenty-seven logs of the same measurement."

"I know it," said the vender in logs. "By drawing it back and forth, the end wore off, until it was only ten feet long, just fourteen feet shorter than it was the first time I brought it, and when it got so short, I drew it home and worked it up into shingles, and the next week you bou ht the shingles, and I concluded I had got the worth of my wagon back—and stowed away in my pocket-book!"

The exclamations of the Judge were drowned in the shouts of the bystanders, and and the log drawer found the door without the promised treat.

THE LAW OF NEWSPAPERS.—The following has been long the law in relation to newspapers, and every subscriber and postmaster should read and obey. We have lost hundreds of dollars by the violations of these rules, and we are often annoyed by the neglect of both postmasters and subscribers to observe them:

1. A postmaster is required to give notice by letter (returning the paper does not answer the law) when a subscriber does not take his paper from the office; and state the reasons for its not being taken, and a neglect to do so makes the postmaster responsible to publishers for the payment.

2. Any person who takes a paper regularly from the postoffice—whether directed to his name or another—or whether he has subscribed or not, is responsible for the payment.

3. If a person orders his paper discontinued, he must pay all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount whether it is taken from the office or not.

4. If a subscriber orders his paper to be stopped at a certain time, and the publisher continues to send it, the subscriber is bound to pay for it if he takes it from the postoffice. The law proceeds on the ground that a man must pay for what he uses.

5. The Courts have decided that refusing to take newspapers and periodicals from the postoffice, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

WHAT IS SODA WATER—The British Medical Journal has been trying to find out what it is, by analyzing fourteen different kinds, sold under various names. It is curious that the difference of composition are found to be very wide indeed, and that only one kind was found to have any proper claim to its name. Many of them had nothing at all in them likely to be useful to the dyspeptic.

The British Pharmacopœia prescribes fifteen grains of bicarbonate of soda to the bottle; and when a medical man orders soda water, that is what he expects his order to produce. One only specimen of soda water among the fourteen examined, that of Blake, came up to this standard. Hooper and Webb were next in quality, and are remarked as very agreeable in flavor. Five of the specimens were altogether devoid of alkali. This is mainly important to those who desire a truly alkaline water, and for whom such drinks are ordered. For those who drink soda water as a purely "aer ted water," agreeably charged with gas, the quantity of bicarbonate soda is unimportant. But there are many who have good reasons for wishing to correct the acidity of their wines, and to aid their digestion by an alkaline water. Such persons are apt to be very much misled at present by drinking many of the beverages sold as soda water, and which are truly only carbonic acid water, and should be so called.

A WISE PHYSICIAN.—The Virginia Enterprise is responsible for the following:

A short time since a physician in this city sent to San Francisco for a supply of vaccine matter. In due time his packet arrived, being a "scab" inclosed in a small box of wax. Not knowing that vaccine matter is usually so put in order to prevent deterioration, our sapient Galen concluded that the whole was a mass of matter, and accordingly began vaccinating with it. He had operated upon some eight patients when he got through the coating of wax, and to his astonishment found within the scab he had sent for. We presume that those eight persons who were *waxinated* are still looking in vain for their scabs to appear.

FANNY FERN ON FEMALE MANNERS.—Fanny Fern, in a recent story in the New York Ledger, when speaking of the difference in the manners of men towards women, deprecates the formalities ladies make use of toward each other and the little "white lies" they make use of rather than be seen when a visit is not exactly convenient, and upon other occasions. She remarks that a fair honest excuse among men is sufficient as they appreciate the value of time and the necessity for seclusion that sometimes exists. She says that the intercourse of men with each other has always aroused her admiration. If one wants to read or write in another's company he does so and no offense is taken.

If he has to leave, he often says no more than "I am off" or "Good-by, old fellow." Sometimes it is a touch of the hat, or a hand laid on the other's shoulder in passing, and no black eyes follow, no locks of hair fly, nor do any hard words or looks result in the future.

If ladies smoked—which the gods forbid! do you suppose that one lady would allow another to stop her in the street and light a cigar, when she was never introduced? When she did not know who her dressmaker was, or where she bought her bonnets? Good heavens! No.

Did you ever notice if there is anything unexpected occurs in the mutual part of men through the same streets, how naturally and frankly they accost each other, though perhaps strangers, and converse about it, and go their several ways to their tombstones after it? Not so, sweet woman! Catch her speaking "to that nasty thing!" How does she know "who or what she is?"

Children are so delicious about those matters. I saw two little girls trying to crack a nut by pressing their tiny shoes upon it. Despairing of success they said to a gentleman passing, "Man, man, crack this nut for us, will you?" His handsome face was luminous with fun as he pressed his polished boot upon it to the delight of the youngsters and myself. Now these little girls would not have thought of asking a lady to do that, or if they had, do you think she would have stopped to do it?

AN AFRICAN was the other day arraigned in a New Orleans police court for larceny. The judge, as of right, was dignified, but with severe presence. "Are you guilty or not?" he inquired. "Sar." "Did you steal these clothes?" he repeated. "Golly, boss, 'clar never done it." "This man says you did." "He a'n't nothin' but white trash." "And what are you?" "Me? Why don't you know me? I rid wid you in de possession. I helped to tote you home when you got tired dat nite—don't you 'member me now?" There was the suddenist *nol pros.* in that darkey's case that judicial annals afford an example of. So much for the advantage of good society.

JOSH BILLINGS ON PILLS.—Josh. Billings has been experimenting on pills and certifies as follows: "I never have used enny of Dr. Emanuel's Liver Consoling and Kidney Encouraging Pills, and therefore kant tell you how influential they am, but if you are looking after a pill as mild as a lamb and as searching az a fine tooth comb, buy Doctor Kingbone's Silent Perambulators, 27 in a box, sold by all respectable druggers. These pills don't phool round, but attend strictly to bizness, and are as good in the dead of night as an alarm clock."

"FELLOW-CITIZENS," said a stump-orator, "we have the best country in the world, and the best government. No people on the face of the globe enjoy more privileges than we do. We have the liberty of the press without onerous despotism. What, fellow-citizens, is more desirable than this? Can you want anything more, my countrymen?" "Yes, sirree!" shouted a listener. "I want a suck of that flask sticking out of your coat pocket behind."

SOME MORMON offered to wager five hundred dollars that the Salt Lake Reporter office would be "cleaned out" before Spring, to which that paper replies: "We will wager five hundred dollars that if this office is destroyed before Spring, before another Spring the 'bulwarks of Zion' will be levelled to the ground, if it takes a gallon of blood for every letter in this paper, and a life for every brick in these walls."

A PHYSICIAN in New Orleans, on being inquired of concerning a friend, repli d that he had been arrested for taking what did not belong to him, and what he had no business to meddle with. "By whom was he arrested, and what did he take?" "He was arrested by Death for taking the yellow fever."

WHEN THEODORE HOOK was asked for a donation to the Society for the Conversion of the Jews, he replied that he had no money to give away, but if they would send him a Jew he would try and convert him. This was not quite what the Society required, and Hook never heard from them again.

A KENTUCKIAN recently stated, in a temperance meeting in Louisville, that he "wasn't much on Bourbon; but," he added, "I allow that I've chewed nigh onto a ton of tobacco, as nigh as I can calculate, during the last fifty years, and I began to chew the weed when I was eleven years of age."

A NEW HAMPSHIRE EDITOR, who has been keeping a record of big beets, announces at last that the beet that beat the beet that beat the other beet is now beaten by a beet that beats all the beets, whether the original beet, the beet that beat the beet, or the beet that beat the beet that beat the beet.

A GIRL of the period comments thus upon Mormonism: "How absurd—four or five wives for one man when the fact is, in these times one woman ought to have four or five husbands. It would take that number to support her decently."

THE BUSINESS MEN of Laramie, more moral than the people of many new Western towns, "keep Sunday." They close their places of business, and go about hunting suspicious persons, whom they forthwith hang to telegraph poles."

SHORT CALLS are best, as the fly said when it lit on a hot stove.

HUDSON & MENET, 41 Park Row, New York, sole agents for the DEMOCRAT in the Eastern States.

LOUISIANA LION.—Republican papers declare that the negro, Menard, who was elected to Congress in the Second Louisiana District, is decidedly the lion of the period. There were thousands of voters in the Republican ranks previous to election who persistently declared that they were not in favor of negro suffrage, or negro equality, and that they would leave the Republican party if they believed its policy favored such measures. What now are the convictions of those professed conservatives who have witnessed the fanaticism of the party of their choice in exalting the negro to a position far superior to that occupied by a great majority of white men? The Louisiana lion can now draw his emoluments from the pockets of a tax-ridden people, and look with contempt on "poor white folks," while his radical friends can chuckle over the triumph achieved by hoodwinking their deluded followers.

WHO LIED?—During the campaign Democratic speakers and Democratic papers charged Radicals with extravagance in their administration of the Government, and predicted that after the campaign was over their pretended economy would be unveiled by large deficiency bills. These assertions they denounced as "Copperhead lies." Well, the election is over and a Radical Congress have already appropriated more than one hundred and sixty millions of dollars to meet the wants of the different departments. Who lied?

PUSSY IN TROUBLE.—An ex-member of the Board of Health of the suburban city of San Francisco has discovered that the visiting propensities of cats for the purpose of getting up impromptu serenades has a tendency to facilitate the spread of small-pox. What next? Why a cat-shooting ordinance by the Common Council, which will doubtless be followed up by a *ratification* meeting. The cats will not "back up" the proceedings.

RELIGIOUS PAPERS.—The San Francisco Advocate, organ of the M. E. Church, doubts the religion of one of its denominational exchanges, but adds: "It is printed chiefly in German and may be much more religious than we suppose." If the Advocate would study German, in order to make a fair criticism of its cotemporary, instead of meddling with political affairs, it might be more religious than many suppose it to be.

VALUABLE WORK.—The Pacific Coast Almanac and Year Book of Facts for 1869, compiled by H. G. Langley, has made its appearance, and as a valuable book of reference commends itself to the public. The book contains an accurate statement of the resources of California, together with many valuable items of interest on various topics at home and abroad.

A TAX ON BACHELORS.—An exchange recommends the policy of taxing old bachelors as a means of raising revenue for the Government. This looks like a plan devised to drive bachelors into the uncertain sea of matrimony. They surely endure misery enough in a state of single blessedness without being assessed like so many animals to add to their trials. Wedlock is far more desirable.

GREAT FOOT RACE.—The great foot race which has attracted so much attention in the United States and Canada, between the "California Plow Boy" and E. D. Davis, of New York, was run on the Fashion Course, Long Island, November 23d. Distance—one hundred and twenty-five yards. Time—twelve seconds. Won by "Plow Boy" by eight feet.

STATISTICS.—In the San Francisco Real Estate Review, of the 9th instant, we find some valuable statistics. The amount of real estate sales in the city and county of San Francisco for the fortnight ending January 7th, was $1,668,047. Auction sales during the same period amounted to $52,665.

SOLVENT AND MAGNANIMOUS.—The facetious editor of the Amador Dispatch says he has funds on hand amounting to "two short bits," and hopes that persons indebted to him will not put themselves to any inconvenience in settling their bills.

SALE OF PEWS.—A sale of pews in Scudder's and Stebbins' churches, in San Francisco, recently, aggregated between nine and ten thousand dollars. The highest price paid for the rent of a single pew was five hundred dollars.

THE PRETTIEST GIRL.—The prettiest girl in California lives on a ranch and makes butter for a living. She's engaged.—[Ex.

Oh, no! She's not engaged; though all butt(h)er is in Yolo county.

SKULL FRACTURED.—A man, delirious with the small pox, jumped from a third-story window in San Francisco on the 11th instant, and sustained a fracture of the skull.

VACCINATION.—Oregonians seem to have awakened on the subject of vaccination. Seven hundred persons were vaccinated, recently, in one day in the city of Portland.

WANTED.—Two million positions for Radical office-seekers. Loyal reference given and good wages required.

A SENSATION.—The people of San Francisco are particularly fond of sensations. Even the terror created by a first-class quaking of the earth is of short duration, for after the shock, and just so soon as crumbling walls cease their creaking and loosened brick and mortar cease their falling, the mysterious earthquake is made the subject of innumerable jokes, and the inhabitants, fortunate in their escape from harm, seem to enjoy the sport with peculiar gusto. They have not been favored recently with a *trembler* worthy of mention, but their insatiate desire for excitement has just been gratified by the "manifestations" of a wonderful ghost, that is said to appear in all imaginable shapes, particularly in the form of a white rat as large as a rabbit. His ghostship has taken up his abode in a house in the southern portion of the city where he succeeded in frightening away a number of boarders by his mysterious tricks and strange, unearthly sounds. Reporters of the press, eager for items, have visited the place and retreated pale and trembling in hot haste from the premises. Armed policemen have volunteered to stand watch, that the mystery might be explained, but have retreated from the presence of his ghostship, and thus far, the shadowy guest of a yawning graveyard is master of the situation and holds high carnival in midnight hours at the "haunted house." It remains to be seen whether he can withstand the attacks of the daily papers, which have the temerity to declare that his ghostship is flesh and blood, and warn him to beware the bullets of "shooting policemen."

WHITE PINE.—The News of January 2d has these items of local interest:

During stormy weather in winter, Treasure Hill is enveloped in a cloud, or thick fog much of the time. For two days after Christmas our town was thus encompassed with a fog so dense and cold as to cover one's whiskers with frost during a few moments exposure, even though the thermometer did not indicate very cold weather, the wind at the time being in the South. One of the effects of this was to coat the trees with a heavy load of frost, formed into beautiful snowy crystals three or four inches in length, and presenting a very attractive appearance. It had the effect also to give many people bad colds accompanied with a cough, from which we infer that these peculiar fogs or clouds which visit us at this season of the year are unfavorable to the health of those who are predisposed to lung diseases, and that those who are not, need to guard well against taking cold at such times to prevent becoming so.

We are now having the most inclement weather experienced thus far this Winter. During the last two days (January 1st and 2d) we have had a driving wind from the south, with a light fall of snow, and a dense cloud of fog hanging around us. Yet the weather is not cold — the thermometer yesterday stood at 18° above zero, and this morning at 10 o'clock it had risen to 26°. There is scarcely a foot of snow on the ground as yet, and that drifted considerable.

We noticed a Salt Lake team on our streets last week, with dressed turkeys for sale at the modest price of ten dollars each. The Saint who brought them swore it was the last lot he would ever bring to Treasure City, if he could not get a better price. A load of wild ducks came in yesterday for sale, but we didn't dare inquire the price for them.

ANDREW JOHNSON.—The McMinnville New Era responds to the suggestion of the nomination of Andrew Johnson for Governor of Tennessee, as follows:

We believe that President Johnson would make a stronger canvass in next August than any man in the State; and could he be induced to accept the position of a candidate for Gubernatorial honors, we feel satisfied that he would bring into the canvass that zeal and earnestness that would develop all the working material in the party—an event only needed to secure success. We hope to see him our next standard-bearer in the State contest.

BEECHER recently addressed the working people of Brooklyn, New York, on the opening of the Bethel Mission. Among other things he assured them that "workmen could not afford to be anything but workers." It must have been very consoling to these poor toilers, who have long dreamed of a time when they could rest from their labors. But they should remember that the political madness of men like Beecher has brought the country to its present condition. We hope the day is past when such sleek, soft-handed hypocrites, while rolling in the wealth of honest labor, can humbug the working classes into the belief that they are their friends. —[Sonoma Democrat.

ACCIDENT ON THE RAILROAD.—The Virginia Enterprise, of the 6th, says:

Yesterday morning, at Truckee, on the Central Pacific Railroad, while a man named Mitchell was trying to uncouple a car by the use of a handle of a pick the cars suddenly started, when the point of the pick was driven through his thigh, in the region of the groin. The wound was a very severe one, but will probably not prove fatal.

A PLEA.—In official life at Washington, since the Radicals have come into power, morality is at a low ebb. Many public swindlers have been arrested. The plea as a defense in such cases, through which many escape merited punishment, is that the accused are United States officers.

A HUGE VEGETABLE.—A farmer in Monterey county raised a carrot this season which weighs fifteen and a half pounds, measures two feet around the top and is thirty-four inches in length.

THE Humboldt Register says that Humboldt county, Nev., is destined to become famous for its potatoes. That county alone could supply the Pacific coast.

GRAIN.—Wheat is quoted in the San Francisco markets at from $1 75 to $1 80; Barley, $2 20 to $2 30; Oats, $2 10 to $2 25; Rye, $3 75 to $4 00.

TIN.—The first bar of tin ever produced in the United States was made recently in San Francisco.

TELEGRAPH SUMMARY.—Attorney General Evarts has directed a discontinuance of prosecutions for treason, a *nolle prosequi* has accordingly been entered in the cases of Jeff Davis and Breckinridge. The case of John H. Surratt has been referred to the Attorney General. Fred Douglass was made permanent chairman of the convention of colored people. The steamer Glide exploded a boiler on Red river, six persons were killed and twenty-five wounded. A fire occurred in Philadelphia on the 14th instant; several lives were lost; damages $800,000. Lieutenant Governor Cumback, of Indiana, has been nominated for United States Senator. A notorious negro horse thief was taken from the jail at Murfreesboro by a party of armed men; he has not been heard of since.

TOWN AND COUNTY MATTERS.

OUR PUBLIC SCHOOL.—Notwithstanding the disadvantages experienced last term of the District School in this place, by reason of a want of sufficient room for the accommodation of the large number of pupils in attendance, success seems to have attended the efforts of those interested in the advancement of the young in the cause of education. In addition to the evil attending the crowded state of the different departments, there was not a sufficient number of teachers employed last term. The same disadvantages have been more sensibly felt since the beginning of the second term than before, in consequence of a large increase in the number of pupils. These reasons have suggested to the minds of the trustees the necessity of creating an additional department and employing another competent teacher. Such measures will of course be attended by additional expense, but their adoption is plainly an absolute necessity, and will, we believe, be endorsed by the public. The revenue derived from the School Fund is not sufficient for the accomplishment of this purpose, and in order that the expense may not be made burdensome on a few it is proposed, by the trustees, to appeal to the patrons of the school for assistance. It has been suggested that each one should be requested to pay the sum of fifty cents per month for each and every scholar sent, and that non-residents of the district be required to pay $3 00 in the higher and $2 00 in the primary department per month for each scholar sent. This sum could be collected monthly from each scholar by the teacher without any expense attending the collection. We believe the proposed change is one of urgent necessity, and hope the suggestions of the trustees will meet a proper response.

FIRE COMPANY.—Woodland has escaped almost scot-free, and miraculously too, from the ravages of fire. Sufficient warnings have been given, however, in numerous instances recently where the town has been imperiled by a destructive conflagration, to demonstrate the necessity of some effective organization to prevent the destruction of property by fire. In various parts of the State, and especially in the mountain counties, whole towns and cities have been swept away, and the proceeds of years of patient toil laid waste in a few moments, because no means were at hand to check the devouring element. Woodland must have a fire company, and some measures should be at once adopted to bring about the organization of such an institution. Like all other institutions proposed for the public good, it will doubtless be opposed by many who will dread their share of the necessary expense attending such organization. But sooner or later the propriety of such a measure will be realized by all, and the sooner the better. A number of our citizens who have had experience as firemen in larger cities would cheerfully lend their aid in the accomplishment of a movement, so desirable, and property holders in general would derive a benefit in the enhancement in value of their possessions, which would necessarily attend a feeling of security from the danger of fire.

THE MYSTERY EXPLAINED.—The proprietor and boarders of one of the principal hotels in this town experienced considerable inconvenience several nights this week, in consequence of being left in total darkness—the lamps and chandeliers failing to perform their offices. In the evening as soon as the lamps were lighted they would give forth a sickly, flickering ray, and suddenly go out as if turned down by an unseen hand. This state of affairs excited the chagrin of some, furnished amusement for others, while to the more timid it presented a topic on the subject of supernatural agencies and spiritual manifestations, and a report immediately found currency that the house was haunted. An investigation, however, was made by the clerk—assisted by a Life Insurance Agent who is a guest of the house—and the mystery explained by discovering that the boss of the grocery department of a Main street establishment (who didn't graduate as an apothecary) had sent to the hotel several gallons of castor oil, in lieu of lucine oil which had been ordered by the landlord. The lamps had all been well filled with the oil of castor beans, by an experienced hotel clerk who is better acquainted with the nature and properties of other fluids.

MASONIC HALL AT KNIGHT'S LANDING.—An association has been formed at Knight's Landing the object of which is to "procure a suitable and convenient building or structure for rent as a Masonic Hall, and also to rent such other compartments and rooms therein for trade, business or commerce, as the said corporation may deem most conducive to their interest and profit." Three trustees, J. W. Snowball, Robert Roberts and James W. Gill, have been elected, and the certificate of incorporation has already been filed in the office of the Secretary of State. Capital stock, $6,000; in sixty shares of $100 each. The object is worthy of success.

$50 REWARD.—Mrs. M. L. Hart is very desirous of learning something of her son, Henry W. Hart. He came to this State from Chicago, Illinois, last April, and was in Woodland in June; since which time he has not been heard from. He is about 21 years of age, medium hight, dark brown hair, blue eyes and light complexion. He is an only child, and his distressed mother will feel grateful for any information concerning him—whether he is dead or alive. She offers fifty dollars reward for such information. Address—Editor YOLO COUNTY DEMOCRAT. Our exchanges will do an act of kindness by giving publicity to this matter.

ATTEMPT TO BREAK JAIL.—A desperado, on Saturday night last, made an attempt to break into the jail for the obvious purpose of releasing, one or more of the prisoners confined there. Ned Boyle, the jailor, hearing a suspicious noise, attempted to capture the villain, who fired upon him as he approached, the ball passing through Ned's coat sleeve. Boyle returned the fire, with what effect is not known. The jail-breaker escaped in the darkness, and will doubtless regard such experiments as dangerous in the future. The prisoners are secure in their cells.

CAPTURED.—Deputy Sheriff McDonnell, while on a recent visit to San Francisco, captured a young lady and took her before the priest, who sentenced the fair captive to a life partnership with the deputy. Sam returned with his prize on Thursday evening and the happy couple are receiving the congratulations of their friends.

CIGARS AND TOBACCO.—For lack of space this week we are compelled to leave out several advertisements; among which is P. Franklin's. Persons visiting Sacramento can find at his establishment, No. 102 J street, the best stock of tobacco, cigars, etc., this side of the Bay. He is a "congenial cuss," and honorable in all his dealings.

PROMPT PAYMENT.—J. A. Bissell, agent for Continental Life Insurance Company, paid over on the 12th instant, the sum of $2,000, for insurance on the life of G. A. Fabricus, who died a short time since. A card acknowledging the same by C. S. Frost, attorney for administratrix, will be found in another column.

GOOD TEMPLARS.—That scourge of the human family, intemperance, is meeting with a formidable foe in the ranks of the Good Templars. Woodland Lodge, No. 237, is increasing rapidly in membership. At the last meeting of the Lodge twelve new members were placed on the roll.

CONDITION OF THE CEMETERY.—We have on several occasions called attention to the fact that the cemetery near town is sadly in need of improvement, and regret that the necessity still exists of referring to its neglected condition. It is but natural, in all communities, to delay the accomplishment of many worthy objects, but there are duties to be performed and certain claims of humanity to be heard that should find a response in every heart. Proper respect to the dead is one of the surest evidences of advancement in civilization and refinement, and the solemn duty is one of universal application. Its promptings awaken the finer sensibilities to the exercise of holy purposes, and its faithful performance exalts and dignifies the living while it justly cancels sacred obligations to the dead. The cemetery, used as the last resting place of those who die in a section of country comprising nearly one-half of Yolo county, is without an enclosure and the graves of the dead, in the midst of a wealthy and prosperous community, are permitted to be mutilated by stock that roam at pleasure over the hallowed ground. Appropriate measures should be adopted without further delay to have a good and substantial fence placed around the graveyard. This measure, if carried out, will lead the way to other improvements which cannot be made until the ground is first properly enclosed. The season for planting is at hand, and by concert of action the unsightly appearance of our cemetery might be wonderfully changed by setting out evergreens, shrubbery, etc., and otherwise showing that respect for the dead which should be considered the highest duty in all civilized communities. These ends may be accomplished at a cost that will scarcely be felt by any one if undertaken, as it should be, by all who are interested. By all means let the improvement be made without further delay.

DRUGS AND MEDICINES.—Read & Magee have refitted their drug store in elegant style and have on hand a full supply of all articles usually to be found at such places. See their new advertisement this week.

KNIGHT'S LANDING DRUG STORE.—A fine assortment of drugs and medicines can be found at the drug store of Peter S. Glasscock, Knight's Landing. His advertisement will be found in to-day's DEMOCRAT.

INCREASING.—One of our leading physicians, who is a member of the "Board of Health," informs us that the population of Yolo county is rapidly increasing.

A VALUABLE ARTICLE.—The article known as "Ethecline," prepared by Read & Magee, druggists, is just the thing to remove stains and grease spots from all kinds of cloth. Try it.

ROADS.—The condition of the county roads has been anything but delightful for some time past. The weather, however, is favorable for a change in this respect.

WOODLAND MARKET.—The fine display of choice meats made at the Woodland market during the holidays is still continued by the proprietor. See advertisement.

MEDICAL.—Dr. Parramore, who recently located at Knight's Landing, has established himself in the practice of medicine. His card will be found on first page.

RELIGION is a good thing; Benevolence is a good thing; Politics is a good thing; War is a good thing; Money is a good thing; Pestilence and Famine are good things, and it is so with a hundred other matters which we at times imagine we are cursed or blessed. Hard as these afflictions may seem, they all result in good, one way or another. It is particularly so with PLANTATION BITTERS; but they must be used with moderation, and according to the directions. You must not abuse or indulge in them too freely; if you do, like other blessings, they will do harm by an over indulgence or abuse. *

ELECTRO SILICON.—This curious and valuable substance is confidently claimed to be the BEST ARTICLE ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SYRUP. A few doses given in time MAY SAVE THE LIFE OF A DARLING CHILD. Do not fail to have it on hand, if you would be safe and free from anxiety.

"IN TIME OF PEACE PREPARE FOR WAR."—So get a bottle of DR. E. COOPER'S UNIVERSAL MAGNETIC BALM, an unequalled preparation for Dysentery, Diarrhœa and Cramp. The instantaneous relief for Burns, Bruises and Sprains.

TO WHITE PINE.—The Central Pacific Railroad is now in running order to Elko, a distance of four hundred and sixty miles East of Sacramento. From this point a good road has been opened over an almost entirely level country to Hamilton, a distance of one hundred and twenty-five miles. Len Wines has put on the route a line of daily stages, and thus communication with the new silverado is made complete. We presume the severity of the weather, however, will prevent a great rush for some weeks to come.—[Capital Reporter.

Says Delia to a reverend dean,
"What reason can be given,
Since marriage is a holy theme,
That there are none in Heaven."

"There are no women there," he cried.
She quick returned the jest,
"Women are there, but I'm afraid
They cannot find a priest."

GOOD FOR WHITE PINE.—On the 7th of January the wife of Joseph Keller presented that gentleman with twins. White Pice is a good country for babies as well as for rich silver ledges.—[Capital Reporter.

SAYS KATE to her new husband, "John, what rock does true love build upon?" Quoth John, and grinned from ear to ear, "The rock of yonder cradle, dear."

A CORRESPONDENT of the Nevada Gazette says: "A loose sand bank is stronger against an ocean tide than a Nevada tippler is against a whisky toddy."

THAT WAS A WISE NIGGER, who, in speaking of the happiness of married people, said: "Dat ar' 'pends altogedder how dey enjoy demselves."

EXPENSIVE.—It cost Sacramento City nearly ninety thousand dollars for street grading and paving in 1868.

G. J. OVERSHINER,

CARRIAGE AND WAGON MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale

Carriages,
Buggies,
Sulkies,
CONCORD-STYLE THOROUGHBRACE
—AND—
LUMBER WAGONS,
—FROM THE—
BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!

Plows,
Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles,
Neckyokes,
Singletrees,
Stretchers,
Clevises,
Fifth-chains,
Lap-Rings,
Harrow-Teeth,
Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Ludden, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.

STOP THAT COUGHING.

Some of you can't, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

Newell's Pulmonary Syrup

is really the VERY BEST remedy ever compounded for the cure of coughs, colds, sore throat, Asthma, Whooping-cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefitted by the surprising curative powers of

Newell's Pulmonary Syrup,

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup

has cured thousands, and it will cure YOU if you try it.

This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

Newell's Pulmonary Syrup.

Redington, Hostetter & Co.'s
ESSENCE OF
JAMAICA GINGER!

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

FOR THE HANDKERCHIEF.

This article, possessing the most delicate fragrance of Flowers, is unequalled as a perfume for the Handkerchief.

FOR THE BATH.

Used in bathing, it imparts energy and strength to the system, and gives that softness and delicacy to the skin so much desired by all.

It Removes Sunburn, Freckles and Pimples.

Diluted with water, it makes an excellent Dentifrice, imparting pearly whiteness to the teeth, sweetness to the breath, and renders the gums hard and of a beautiful color.

It should always be used after shaving, diluted with water, as it relieves all inflamation.

REDINGTON, HOSTETTER & CO.,
416 and 418 Front street, San Francisco.

ELECTRO-SILICON,

The Reasons for Insuring
—IN THE—
NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON.

By the Acts of Massachusetts, incorporated into the General Statutes of 1860 and 1864, a Policy of Life Insurance for the benefit of a Married Woman, or any person or persons specified, goes to them independently of the debts and liabilities of the party who effects the policy.

An Act to Regulate the Forfeiture of Policies of Life Insurance.

Be it Enacted, etc., as follows:

SECTION 1.—No Policy of Insurance on Life, hereafter issued by any Company chartered by the authority of this Commonwealth, shall be forfeited or become void by the non-payment of premium thereon, any further than regards the right of the party insured therein to have it continued in force beyond a certain period, to be determined as follows, to-wit: The net value of the policy, when the premium becomes due and is not paid, shall be ascertained, according to the "combined experience" or "actuaries'" rate of mortality, with interest at four per cent. per annum. After deducting from such net value any indebtedness to the company or notes held by the company against the insured, which notes if given for premium shall then be canceled, four-fifths of what remains shall be considered as a net single premium of temporary insurance, and the term for which it will insure shall be determined according to the age of the party at the time of the lapse of the premium, and the assumptions of mortality and interest aforesaid.

SECTION 2.—If the death of the party occur within the term of temporary insurance covered by the value of the policy, as determined in the previous section, and if no condition of the insurance, other than the payment of premium shall have been violated by the insured, the company shall be bound to pay the amount of the policy the same as if there had been no lapse of premium, anything in the policy to the contrary notwithstanding: provided, however, that notice of the claim and proof of the death shall be submitted to the company within ninety days after decease; and provided, also, that the company shall have the right to deduct from the amount insured in the policy the amount at six per cent. per annum of the premiums that had been forborne at the time of the death.

YOLO COUNTY DEMOCRAT.

Several Days After Christmas.

The feasting of Christmas is over and past,
The turkey, and pudding, and cakes,
And pies, and confections, are eaten at last,
By the children who shovelled them in so fast;
And many a child has stayed awake
At night with a familiar ache,
Which follows on eating more than enough
Of pudding and turkey, and all such stuff.

That funny old humbug Kriss Kingell,
Whom the boys and girls love so well,
Has had the sense to go and clear out,
And he's up the chimney or up the spout;
And the boys and girls are beginning to count,
And trying to reckon the whole amount
Of the jolly old lot
Of the presents they got,
And we'll help to reckon them up on the spot.

Betsie and Susie and Maria declare
That their elegant dolls have lost their hair,
And marked their faces, and bruised their eyes,
And suffered other mishaps on this wise;
Jimmy's horse has lost his tail,
And his woolly dog, so curly and frail,
Has shed about a teacup full
Of his principle ornament, namely, wool;
And Johnny's drum
To grief has come,
And is mute and dumb,
And no better than dead—
For Johnny's punched in the back of its head
In order that he
The better might see
The inside of the drum,
And so find out where the sound came from.

A HUSBAND having lectured his wife when about to adopt the present mad fashion of much false hair, the fair creature exclaimed, with tears: "I never thought, Adolphus, that the time would come when you would *upbraid* me!"

THEY have a case of small-pox in Grass Valley, and the Union says, when a friend invites another to drink, he simply says, "Let's disinfect."

"JAKE, lend me ten dollars 'till I sell my dog." "Jake replies soothingly and sympathetically, "Oh, Jim, I *wouldn't sell him.*"

And a thousand and one other articles, too numerous to mention.

Therefore, be it

RESOLVED,

That, with the assurance which HUSTON, GOLDMAN & CO. give the public, to sell **Cheaper than the Cheapest,** it is to the interest and benefit of the Ladies of Knight's Landing and vicinity to hasten at once to their store and buy their fineries, of which they will find the variety equal to Stewart's Bazaar, New York.

Gents will find there, for a little sum, the best investment ever offered, from a Sunday-go-to-Meeting to a Parisian Bob-tail suit.

Farmers can never obtain better inducements in quality or in price, of any kind of goods, than is given, with the best of accommodation, at HUSTON, GOLDMAN & CO.'S.

Blacksmiths, Carpenters, Shoe-makers, Harness-makers, Painters, and all other mechanics will find a saving of 15 to 20 per cent. in all goods in their line, by purchasing at our store.

The young people who are on the journey of Matrimony, and desirous of supplying themselves with every kind of HOUSEHOLD FURNITURE, can find each and all articles, at reduced prices.

To Sheep and Grain-raisers, we offer all kinds and sizes of **Sacks** and Sack Twine, at San Francisco prices.

For SWEETEST BUTTER and LARGEST EGGS, and all country Produce, we will always pay the highest prices.

Country orders promptly attended to. Goods delivered, as the convenience will offer, free of charge, all over the village.

Thankful for past favors, we solicit a continuance for the future, and insure general satisfaction in all kinds of trade extended to us.

FARMERS

Are particularly invited to examine our stock of Farming Utensils—Plows, Harrows, etc. We are agents for Baker & Hamilton.

$1.000 Reward for its Equal!

THE NEW

WEED

SEWING MACHINE!

Just completed, in SOLID STEEL MACHINERY, and combining in ONE the good of ALL!

This most enterprising Company has certainly brought out

THE BEST SEWING MACHINE EVER MADE!

And indeed is the ONLY NEW Sewing Machine, of any name, manufactured for the last eight years. Even a *superficial* observer can easily see that it surpasses all others, at least in the simplicity and durability of its machinery, and its remarkable

EASE OF MOTION AND MANAGEMENT.

It has few pieces, and all of steel. It makes the complete **"Lock Stitch,"** the same on both sides, which will not ravel. Every Machine is warranted to sew from

Thinest Lace, to Double Harness Leather!

and of course can never be got out of order by "hard sewing." ☞ All repairs free of charge. Prices same as others.

PLEASE NOTICE.

The claims of the Florence Company for the First Premium at the great Paris Exposition of 1867, though seeming *true* in *letter*, is really false in spirit and intent, and calculated greatly to deceive the public. Although it *did* receive the Silver Medal—that being the highest award given—it was *not* awarded the FIRST RANK! This was awarded the **Weed** Sewing Machine, and to the *WEED only,* as being "first in the order of merit." The second place was given to an European Machine, and only the *third* to the Florence! But the claim of the Wheeler & Wilson Company, at this Fair, is a great outrage, both as to letter and spirit; at least so much of it as pertains to their Gold Medal upon their Family Machine, which, to speak plain, is purely imaginary, they having received—as is well known—their Gold Medal on their "Button-hole Machine," but nothing at all on their "Family Machine;" not even a bronze medal, nor indeed (what is worse) even an "honorable mention." (See official report.) See also, as to the new *WEED* Sewing Machine, the returns of the State Fairs of Pennsylvania, Illinois, New Hampshire and New York, for 1867, at each of which the *NEW WEED* "F. F." Sewing Machine was pronounced the *BEST,* and received the highest premium given. And so also at other Fairs, and indeed where or the Company shall choose to exhibit the "strong points" of this really magnificent Machine.

S. E. HOAR, General Agent,

Office No. 8 Montgomery street, San Francisco.

H. U. OGBURN & LADY, Woodland, agents for Yolo county, where this Machine will be ever ready to "speak for itself," both to those who see and those who buy. jy4-1y

HELMBOLD'S BUCHU.

The only Known Remedy

— FOR —

Diabetes, Irritation of the Neck of the Bladder, Inflamation of the Kidneys, Catarrh of the Bladder, &c., &c., &c.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. Are you troubled with that disgusting pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

Physicians and Others

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract Buchu is composed of Buchu, Cubebs and Juniper Berries, selected with care, prepared in vacuo and according to the rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded. A Diuretic is that which acts upon the Kidneys. Helmbold's Extract Buchu acts gently. It is pleasant in taste and odor, free from all injurious properties, and immediate in its action. For the satisfaction of all, see Medical Properties contained in Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, chronic catarrh of the Bladder, morbid irritation of the Bladder and Uretha, diseases of the Prostrate, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, chronic Rheumatism, cutaneous affections and Dropsy."

For further information see Professor Dewees' valuable works on the Practice of Physic. See remarks made by the celebrated Dr. Physic, of Philadelphia. See any and all standard works on Medicine.

Dr. Keyser is a physician of over thirty years' experience, and a graduate of the Jefferson Medical college and of the University of Medicine and Surgery of Philadelphia:

Mr. H. T. HELMBOLD—Dear Sir: In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys; and the reputation it has acquired, in my judgment, is warranted by the facts. I have seen and used, as before stated, every form of Buchu—the powdered leaves, the simple decoction, tincture fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years' experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality I give yours precedence over all others. I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever name. Respectfully yours, etc.,

GEO. H. KEYSER, M. D., 140 Wood st.
Pittsburg, Pa., August 11, 1865.

ASK FOR

HELMBOLD'S FLUID EXTRACT BUCHU.

FROM THE LARGEST MANUFACTURING CHEMIST

IN THE WORLD.

I am acquainted with H. T. Helmbold; he occupies the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. WM. WEIGHTMAN,
(firm of Powers & Weightman), Manufacturing chemists, Ninth and Brown streets, Phila.

The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are genuine preparations, and knowing that the intelligent refrain from using anything pertaining to Quackery, or the Patent Medicine order—most of which are prepared by self-styled doctors, who are too ignorant to read a physicians' simplest prescription, much less competent to prepare Pharmaceutical preparations. These parties resort to various means of effecting sales, such as copying parts of advertisements of popular remedies and finishing with certificates. The science of medicine stands simple, pure and majestic, having fact for its basis, induction for its pillar, truth alone for its capital.

A Word of Caution.

Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.
